MLA requires all of the above information except URL, and volume & issue number. APA needs the name of the newspaper or magazine instead of web site and sponsor. For a magazine APA also needs volume and issue # if available.			
Main ideas: record in point form and use quotations when wording is similar to source		Reflection: record your own response/interpretation to the main ideas	

Note: Does your teacher expect you to use MLA or APA for your bibliography? The format is different.

URLs are no longer needed in MLA.
